

**Postdoctoral Associates in Structural Biology and Biochemistry in the Department of Pharmacology, University of Colorado School of Medicine, Full Time 100%**

Full-time positions are available in the Kutateladze Laboratory in the Department of Pharmacology, University of Colorado School of Medicine to study molecular mechanisms of epigenetic regulation. We are looking for highly motivated Ph.D. scientists with experience in crystallography, biochemistry or NMR spectroscopy. The candidates should have strong training and publication track record. The successful applicants will conduct a highly collaborative research in the area of chromatin biology, epigenetics, chromatin remodeling, gene transcription and DNA damage repair. The salary range for the positions will depend on qualifications.

Please forward your resume with the names and phone numbers of three references to: [tatiana.kutateladze@cuanschutz.edu](mailto:tatiana.kutateladze@cuanschutz.edu), University of Colorado School of Medicine, Mail Stop 8303, PO Box 6511, Aurora, CO 80045-0511. Credential review for the positions will begin immediately and will continue until the positions are filled.

The University of Colorado Denver | Anschutz Medical campus is committed to providing a safe and productive learning and living community. To achieve that goal, we conduct background investigations for all final applicants being considered for employment.

The Immigration Reform and Control Act requires that verification of employment eligibility be documented for all new employees by the end of the third day of work.
